Wm. M. Grant,	1 50
Louis Seabury,	4 50
Wm. S. Fogg,	5 02
Henry H. Groves,	34 12
George W. Partridge,	18 67
Wilbur C. Jones,	19 25
Frank Grant,	33 38
Joseph McKearney,	21 00
Lewis Sawyer,	1 50
W. G. Sweetser,	23 68
Charles Peterson,	64 81
G. Angier Cleaves,	11 38
W. H. Soule,	111 00
A. O. Sands,	5 25
Fred W. Titcomb,	26 25
Peter McManus,	8 63
Freeman G. Cleaves,	14 00
Kingsley & Porter,	20 00

Edwin C. Seabury,		28 61
Howard L. Russell,		14 10
James Ednie,		4 25
Albert L. Pulsifer,		10 00
O. E. Hines,		3 00
Charles O. Rowe,		5 25
Wilbur C. Jones,		5 25
Martin Welch,		3 00
Frank Grant,		29 63
Lorenzo Hamilton,		35 50
G. Angier Cleaves,		7 00
John S. Greeley,		7 50
W. H. Soule,		115 00
Lewis Sawyer,		75
John W. Kenney,		14 00
Isiah Mansfield,		8 25
R. S. Webb Co.,		23 86
Wm. M. Grant,		4 00
R. H. Talbot,		10 00
Edward Talbot,		26 30
L. A. Doughty & Co.,		7 83
Wm. Hollowham,		3 00
Thomas Simonton,		6 75
J. B. Dennison,	blacksmith work,	22 15
S. H. Ordway,		3 13
H. P. Lovell,		1 50
Ernest Oliver,		1 50
Stillman Sawyer,	gravel,	8 13
C. S. Sawyer,		7 12
E. A. Clark,	cement,	2 90

Appropriation,	\$1,500 00
Amount Expended,	<u>1,986 56</u>
Overdrawn,	\$486 56

Amount due from Portland and Brunswick  
Street Railroad, \$146 17

We have exceeded our appropriation, but the demands of our summer people at Princes Point and the condition of the roads in that vicinity obliged us to lay out quite an amount of money to make the roads passable.

## Report of Overseers of Poor.

---

As Mr. Charles A. Hill and his wife, the former Superintendent of the Town Farm did not wish to stay longer we contracted with Mr. Joseph Greenwood and his wife to take charge of the Farm for the sum of three hundred dollars for one year from May 1, 1906, to May 1, 1907, with the board of one son, the oldest son to pay the sum of three dollars per week for board so long as he should remain there. Mr. Greenwood was to keep his horse upon the Farm during the year for the sum of fifty dollars, with the understanding that no charge should be made for any use that he might be put to.

The inmates at the Farm are the same as last year, Emma Storer, Matilda Corliss and Nathaniel G. Farrer. One dollar and fifty cents is paid per week for the board of Emma Storer. Mr. Farrer gave us quite a lot of trouble and expense at the beginning of the year by running away, but we are hoping that he has sown all his wild oats and hereafter will stay at home.

The Farm is well kept up, the inmates are well used and there is no reason why they should not be contented

We contracted with Dr. C. A. Chase for medical attendance upon the poor at the Almshouse and outside poor of the Town for the sum of fourteen dollars.

We have furnished supplies to the family of the late Alonzo P. Ladd who are living in Portland, to the amount of eighty dollars and fifteen cents. The City of Portland has also furnished supplies to Cora Farrer amounting to twelve dollars and fifty cents which has

been paid by this town. Mrs. Bryant who had made her home with Freeman Ackley her son-in-law, until her death in the Fall, had been helped to the amount of one hundred and fifty-four dollars and seventy-five cts., which included board, medical attendance and burial and charged to the town of East Machias, which bill will be paid by that town. We have paid Mr. John Buckle two hundred and eight dollars for boarding the Stoddard family for the year.

The past year we have had but very little trouble with tramps as only forty-four during that time have applied for food and lodging. An account of the expenditures of the Town Farm and Outside Poor follows:

#### **Town Farm Account.**

Charles A. Hill,	salary March,	25 00

The Superintendent, Mr. Greenwood, has worked with the team upon the roads 154½ days, and allowing him \$3.50 per day he would have received \$540.75.

This amount with the other resources of the Farm, would give an income of \$933.06. Deducting the last named sum from \$1,090.31, the cost of running the Farm we would have \$157.45 as the net cost of supporting the poor at the Almshouse.

### **Inventory.**

Rec'd from R. J. Simonton,	131 97
	<hr/>
	\$557 31

Amount expended,	692 82
Overdrawn,	135 51
Due from Mrs. E. E. Hill,	144 22
Due from Daniel Ward,	84 54

The expense of Lillian Field is being paid by the Town of Poland. Mr. J. R. Simonton is paying the expenses of his sister Mrs. E. E. Hill. A sister of Roscoe Wilson will reimburse the Town for his expense. Daniel A. Ward, a son of Daniel Ward, writes that as soon as he can get the financial affairs of his father settled he shall pay all expense the town has been put to. John Davis has been pronounced cured and allowed to leave the Hospital by order of its officials and we have been trying to find his legal settlement, but thus far without success. The town has been obliged to pay more than one hundred dollars on his account.

There is a pauper law governing such cases wherein towns can make application to the State and be reimbursed for what expense they have been put to, and that we have not succeeded in as yet, a matter for the incoming Board to look after.

## Report of The Board of Water Commissioners.

---

At the last annual meeting, the Committee which was chosen the previous year, was continued to look after and complete the work undertaken for a supply of water for the town.

We did not commence operations quite as early as we intended, owing to a move being made to sell the water works to outside parties, and we waited to see what action the town would take on the report of a committee which was appointed at the annual meeting to see what could be realized for the Water System and report at an adjourned meeting April 16, 1906.

At that meeting after the committee reported and the matter had been fully discussed, the Town voted by a large majority not to sell, but to complete the work already under way.

We then commenced the work by laying the pipe to connect the Hayes Spring (so called) with the pumping station of the Forest Paper Company, the work being done by Fales & Simmons, contractors of Rockland, Maine, under the contract made by them in the Fall of 1905. We employed Mr. Charles C. Dennison, one of our townsmen as inspector to see that the pipe was properly laid, calked and leaded. Our attention was also called to look after and complete the work in and about the spring. Mr. C. W. Fenn, our engineer of Portland, had given us plans and specifications to build a dam at the lower end of the basin, to make a reservoir to hold one million gallons of water. We hired

Mr. Horace G. Ross to take charge of this work, who made a dam about one hundred feet long, nine feet deep, six feet wide at the bottom and three feet at the top, solid concrete so that the reservoir holds at the present time eight hundred thousand gallons of water.

We did not make the dam as high as our engineer's plans by two feet, but should it be thought advisable later to make it higher, it can be done so as to hold the quantity according to the engineer's plans. We sloped and turfed the banks and put a drain of sufficient depth around the reservoir to take care of all surface water. Cleaned up and graded all the grounds surrounding the Spring. We inclosed the lot with a substantial wire fence, with suitable gates at the entrance. about July 15, we were ready to close the gates to fill the reservoir which took four days. Our next move was to wash out the entire pipe line from one end of the town to the other, to get in readiness to supply the town with good pure water. We thoroughly tested all the new work after filling the reservoir the second time and found the contract work and building of the dam had been done in first class shape and our expectations were fully realized as to the flow of water from the Hayes Spring. We found there was a serious leak in the pipe between the spring of the Forest Paper Co. and the pumping station, which we think is under the wood pile near the mill, and this has obliged us at times to the taking of water from that spring.

We have made a satisfactory settlement for land damage with all the people over whose land we were obliged to cross, so that all bills are paid with one

exception; we owe Mr. Isaac E. Hayes a small bill for lumber, and that would have been paid if it had been presented. We have over five hundred dollars' worth of eight inch pipe on hand. We expended, in 1905 about five thousand four hundred dollars, and about eighteen thousand six hundred dollars in 1906, as the following report of expenditures will show, leaving about one thousand dollars of unexpended money which the Town authorized for the extension of water works.

After a conference with the town Treasurer, we decided to issue twenty thousand dollars in bonds, as it seemed to us there was sufficient money to take care of all outstanding indebtedness over and above that sum.

After the completion of the new work, we thought it advisable to make a thorough inspection of our entire water service, and with the assistance of Mr. John A. Seabury, our collector of water rates, we visited every house and place of business where water is taken looked after every faucet and shut-off, and though we found some leakage, the general condition was good. We found quite a number of additions had been made without notifying the water committee, consequently a loss to the town. We notified our plumbers hereafter to make no new connections or additions without notice and consent of the Water Commission. Following will be found an itemized account of expenditures.

Respectfully submitted,

C. L. BUCKNAM,            W. G. SWEETSER,  
H. D. BRACKETT,        F. B. MERRILL,        L. R. COOK.

# Report of The Local Board of Health.

1906-7.

We are glad to be able to present so favorable a report as we can make this year.

There have been no cases of Diptheria, only one of Scarlet Fever and six of Typhoid Fever.

Seven nuisances have been brought to our notice, and satisfactorily remedied with one exception.

There have been forty-seven deaths in town the past year, of this number four were under ten years of age; two between ten and thirty years; six between thirty and fifty years; ten between fifty and seventy years; twenty-one between seventy and ninety and one over ninety-two years old.

Heart disease has claimed seven victims, Tuberculosis and Bright's Disease four each, Pneumonia three and Typhoid Fever one.

There have been fifty-four births reported during the year.

Respectfully submitted,

W. W. THOMAS,  
L. R. COOK,  
D. COLLINS. } Local

## Auditor's Report.

TO THE CITIZENS OF THE TOWN OF YARMOUTH.

The following report for the fiscal year ending  
February 28, 1907, is hereby submitted.

### TREASURER'S ACCOUNT.

Balance in the treasury, March 1, 1906,	\$5 81
Amount received during the fiscal year,	<u>\$81,517 34</u>
	<u>\$81,523 15</u>
Orders paid, outstanding last year,	3,020 06
Orders paid, drawn during the present year,	18,316 90
Balance in the Treasury March 1, 1907,	<u>186 19</u>
	<u>\$81,523 15</u>

Orders, issued in due form by the Selectmen, are on file for all payments made by the Treasurer.

### SELECTMEN'S ACCOUNT.

Amount of orders drawn during	
the present year,	79,360 79
Amount of orders paid by the Treasurer,	<u>78,316 90</u>
Orders unpaid and outstanding Mar. 1, '07,	1,043 89
Receipted bills are on file for nearly all orders drawn.	

Respectfully submitted,  
CHARLES L. MARSTON,  
Auditor.

## Report of Chief of Fire Department.

---

I herewith submit the following report of the Fire Department for the year ending March 1, 1907.

The Department consists of a Chief, two Assistants, and two companies of twenty men each. The Foreman of each company appoints five men to handle the ladder truck.

We have two good companies, and the attendance at regular meetings and drills is very good, which shows they take an interest in their work.

There has been but one alarm of fire during the past year.

The two new fire alarm boxes the town voted to purchase at the last meeting have been installed and they add very much to the efficiency of our fire alarm service.

I wish to call your attention to the fact that you need two new up-to-date hose wagons, fitted with runners for winter use. As you are now situated you are very poorly equipped for a fire that might occur in the winter, as it would be almost impossible to get one of those heavy Reels to a fire in time to be of much use, and even in the summer, after hauling them to a fire the men are in a very poor condition to fight fire.

I will also call your attention to the need of Fire Extinguishers in your school buildings. You have

good buildings and many of them well filled with children, and an Extinguisher that could be operated by the teacher or any of the larger pupils might be the means of saving your buildings.

The amount of property destroyed the past year, about \$1,500.00.

Howard G. Gooding, Dr. C. A. Chase, Assistants.

## Merrill Memorial Library.

---

TO THE INHABITANTS OF THE TOWN OF YARMOUTH:-

The Trustees of Merrill Memorial Library beg to submit their annual report for the twelve months ending December 31, 1906.

The receipts and disbursements of money by the Trustees will be shown to you by the report which their Treasurer will submit at your annual meeting.

The Library building has needed no repairs during the year.

During the year, the Trustees have instituted a Reserve Fund which now amounts to the sum of two hundred and twenty-five dollars (\$225.00), of which Mr. Joseph E. Merrill, the doner of the library, has contributed the sum of one hundred and ninety-four dollars and ninety-five cents (\$194.95). It is the purpose of the Trustees to increase this fund until it reaches the sum of three hundred dollars (\$300.00). Their object in so doing is to have a fund upon which they can draw in case of emergency, such as serious injury to the building, or for other extraordinary expenses, the occasion for which may arise at any time. This reserve fund will be drawn upon only when unavoidable and, if any part of it is thus used, will be restored as early as the income at the command of the Trustees will permit. Not only in his generous assistance in the constitution of this reserve fund has the donor shown that his interest in the library has not abated, but he has also presented it with The Encyclopedia of Horticulture, The Winning of the West and other volumes. He has also generously provided, at an expense of more than three hundred and seventy dollars [370.00]

shelving for the lower stack room which was greatly needed.

The grounds have received constant attention and it is believed their beauty and attractiveness will constantly increase.

Numerous additions of books have been made, both by purchase and by gift, many of the latter having been donated by the President of the Trustees, Mr. George W. Hammond.

The Trustees express their gratification with the advance which the library has made and the appreciation of its advantages shown by citizens of the town.

The following figures are taken from the report of the Librarian: Total number of borrowers 789, an increase of 131 over that shown in the last annual report.

Total circulation for the year,	15090
Largest monthly circulation March, 1906,	1712
Smallest monthly circulation, June and Sept.	1009
Average monthly circulation,	1258
Largest daily circulation, March 10,	110
Smallest daily circulation, April 10,	6
Average daily circulation,	53

Fiction had the largest circulation, 14366 volumes or 95<sup>1</sup>/<sub>2</sub> per cent. of the whole; History, 404; General Literature, 182; Biography, 146; Travel and Description, 126.

The men's reading room has had a total attendance of 918, the largest 119, being in the month of March, and the smallest, 46 in August, an average daily attendance of 3.

The reading and reference room have been well patronized.

CHARLES W. JORDAN, Clerk.

# Warrant for Annual Town Meeting.

---

## STATE OF MAINE.

To JOHN A. SEABURY A CONSTABLE OF THE TOWN OF  
YARMOUTH.

### GREETING:-

In the name of the State of Maine you are hereby required to notify and warn the inhabitants of the Town of Yarmouth qualified to vote in town affairs, to meet at the town house in said Town, on the eighteenth day of March, A. D. 1907, at nine o'clock in the forenoon to act on the following articles, to wit:

#### Article

1. To choose a Moderator to preside over said meeting.
2. To choose a Clerk for the ensuing year.
3. To choose all other necessary town officers for the ensuing year.
4. To hear, and act upon, the reports of the Selectmen, Assessors, Overseers of the Poor, Treasurer, and Superintendent of Schools, and act upon the same.
5. To hear the report of the Water Committee, and act upon the same.
6. To hear the report of the Chief of the Fire Department and act on the same.
7. To raise money for the support of roads, bridges and sidewalks for the ensuing year.

8. To raise money for the support of Common Schools for the ensuing year, and to see if the town will vote to unite with other towns in employing a superintendent of schools.
9. To raise money for the support of the High School for the ensuing year.
10. To raise money for text books, supplies, and repairs of school buildings, for the ensuing year.
11. To raise money for the support of the poor at the Town Farm, and for outside poor, for the ensuing year.
12. To raise money to pay town officers for the ensuing year.
12. To raise money for snow bills and other outstanding accounts now due.
14. To raise money for town notes and interest coming due.
15. To raise money for contingent expenses for the ensuing year.
16. To raise money for lighting the streets for the ensuing year.
17. To fix the compensation of the collector of taxes, and act on the same.
18. To see if the town will make a discount on taxes paid within a given time and charge interest thereafter.
19. To see what compensation the town will allow Firemen for the ensuing year, and raise money for the same.

20. To raise the sum of twelve hundred dollars for the maintenance of the Merrill Memorial Library for the year 1907, as required by the deed of gift of the donor.
21. To raise money for the continuation of the State Road.
22. To see if the town will vote to raise the sum of seventy-five dollars towards defraying the expenses of Memorial Day.
23. To see what sum of money the town will vote to raise for the extermination of the brown tail moth.
24. To hear the request of Charles E. Greeley and ten others, to see if the town will vote to purchase runners for the Ladder Truck, and raise money for the same.
25. To hear the request of Charles E. Greeley and ten others to see if the town will vote to purchase Hose Wagons to be used in place of the Hose Reels they now have, and raise money for the same.
26. To see if the town will vote to accept the Old Baptist Meeting House for a Town House, and for Town Offices.
27. To see if the town will vote to raise and appropriate a sum of money for the purpose of meeting and paying for, either in whole or in part, the expenses of copying, printing and binding the proprietor's records and the town records of the town of North Yarmouth, from the earliest times to the year 1894.

28. To see if some better and more equitable method cannot be devised concerning the care and maintenance of our present sewers, and the construction of those which may be needed in the future.
29. To see if the town will vote to authorize the Selectmen and Treasurer to make a temporary loan of money, provided the same shall be found necessary.
30. To see if the town will vote to raise a sum of money to fence and place our lower cemeteries in proper order.
31. To hear the request of Joseph H. Seabury to see if the town will vote to extend the Water Service from Bay View street to his residence and raise money for the same.
32. To hear the request of Charles Poole and seven other legal voters to see what the town will do relative to their title in the town farm belonging to said town of Yarmouth, which is situated in No. 9, and formerly the Paul Prince farm, and provide money for the expense of the same.
33. To see if the town will have the records of births and deaths in this town previous to the year 1892, corrected and recorded at a cost not to exceed twenty-five dollars.
34. To see what action the town will take in regard to rent of land occupied by A. O. Sands and Russell & Porter.
35. To hear the request of Joseph McKearney and seven other legal voters to see if the town will vote to

have the town water extended from where it now is on Hillside Street, as far as Howard B. Thurston's house and raise money for the same, for a summer service and to be operated the same as Princes Point extension.

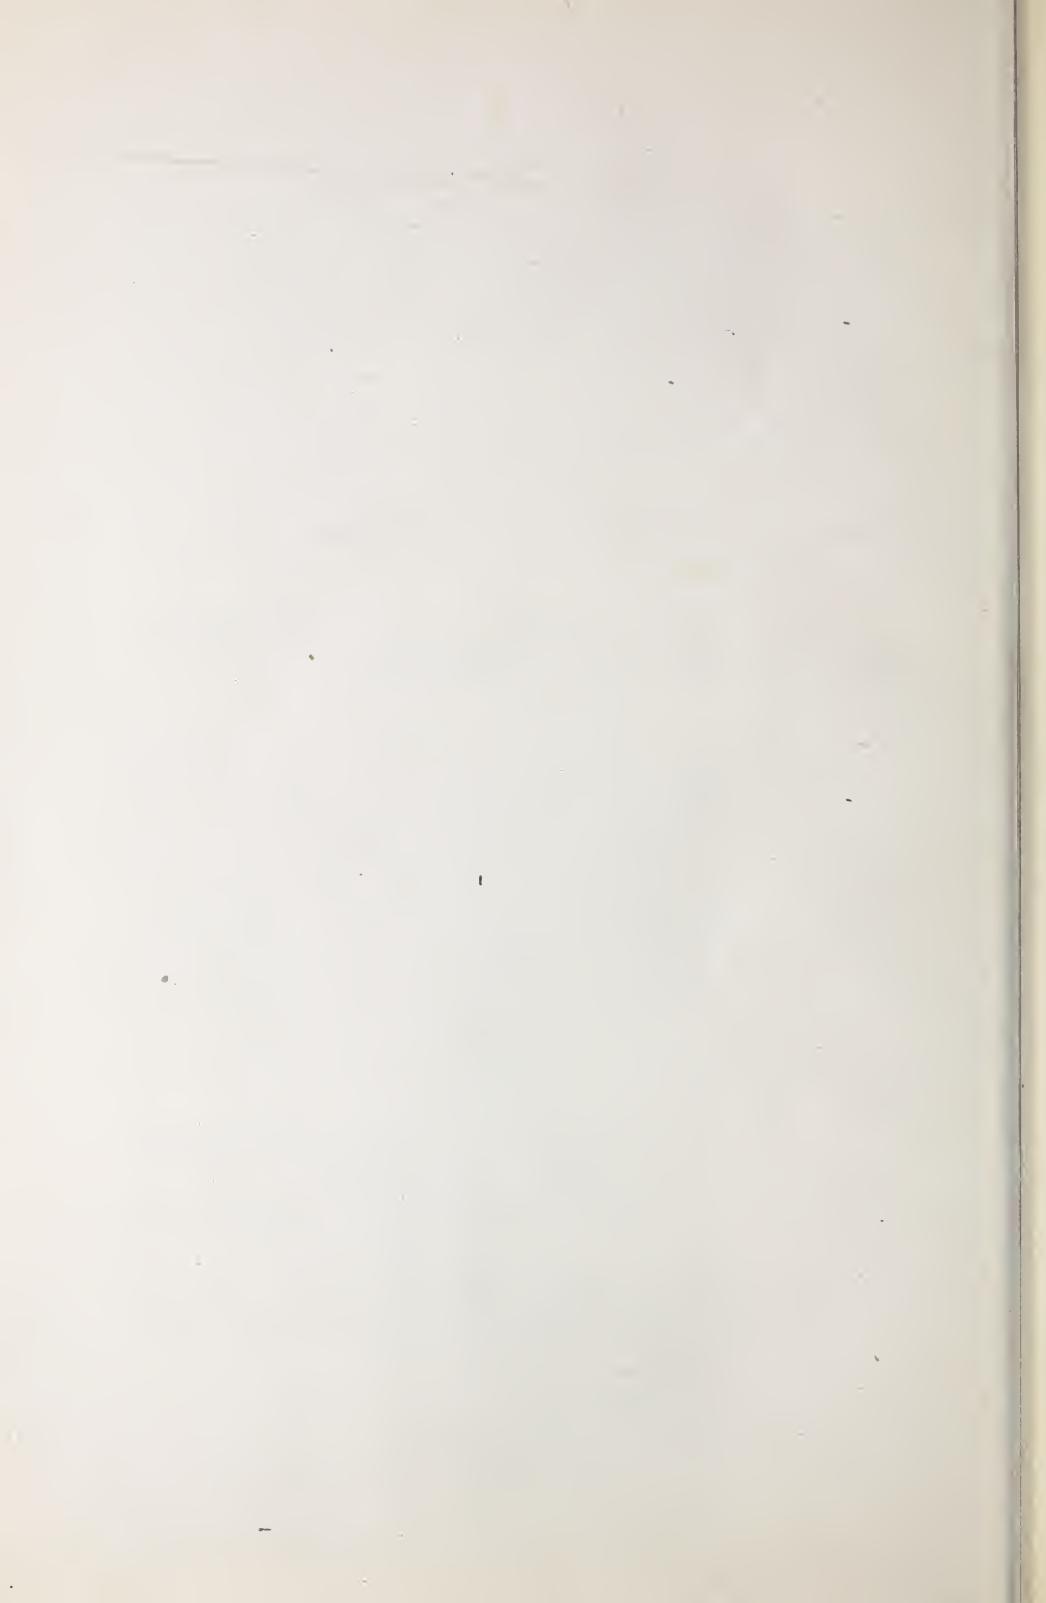

36. To hear the request of Joseph McKearney and seven other legal voters to see if the town will vote to locate and maintain a fire alarm box at the corner of Cumberland and Hillside Streets and raise money for the same.

37. To see if the town will vote to change what is now called Cobb's Court, to Storer Street.

The Selectmen hereby give notice that they will be in session at the selectmen's office in Masonic Hall for the purpose of revising and correcting the voting list and hearing and deciding upon the applications of persons claiming to have their names entered upon said lists, on the three secular days preceeding said meeting, from two to five o'clock in the afternoon.

Given under our hands this nineth day of March  
A. D. 1907.

C. L. BUCKNAM, } Selectmen  
W. G. SWEETSER, } of  
H. D. BRACKETT. } Yarmouth

## School Report.

## Report of Superintendent of Schools.

---

*To the School Committee and Citizens of Yarmouth: —*

The following report is respectfully submitted.

It should be borne in mind that much of the work of schools is of a kind it is impossible to tabulate and place on record. The larger and more important results of education appear in the years when the child shall have become grown, his character formed and his abilities shall have reached their full development.

However, as a business house finds each year methods of extending its interests, and as our mills aim to secure an improved output, so should a school system be able each year to record steps of advancement and progress in respect to the things for which it stands.

### ATTENDANCE.

There have been but few cases of truancy as compared with last year. The total number of pupils registered in the common schools for the spring term was 372; fall term, 391; winter term, 353. The school census taken last April showed the number of persons between the ages of 5 and 21 to be 654. When we compare the total number of pupils enrolled with the total school population, it shows that Yarmouth has a distinctly favorable record in the matter of school attendance. This reflects creditably upon the support given to the schools by parents and citizens. Last year I reported a crowded condition of the East School, Falls, and the Intermediate. By the sentiment expressed at your last annual

meeting, one grade was taken from each of the above mentioned schools and placed in a room of the Grammar School building. On the whole, the attendance has been regular and punctual.

Although the total attendance for the year has been about the same as last year, yet by the changes made the opportunities for better work have been materially increased.

#### TEXT BOOKS.

In the text books used in the elementary schools there has been but one change. The Nichols Arithmetic was introduced into all of the lower grades after it had been tried for one year in the Falls school. The usual supply of copy books and spelling blanks has been purchased.

The introduction of the Wentworth Arithmetic, begun two years ago, has been completed.

In the departments of Mathematics, Bookkeeping, French, and Ancient History in the High School, purchases have been made.

The supply of supplementary reading in the lower grades was exhausted and purchases to supply the demand were made.

For the ensuing year it will be necessary to purchase basal readers for the lower grades.

#### TEACHERS.

So important is the place of the teacher in the economy of the schools that it is only just to make special reference to our teaching force. The teaching force generally is marked by a conscientious fidelity to duty, a spirit of progress, a rare enthusiasm, and an unselfish consideration of the claims made upon time and strength.

By teachers' meetings, frequent conferences with teachers, collectively and individually, and by discussions of edu-

cational methods, problems, etc., the teachers have been enabled to keep in touch with progressive methods.

The average salary of our teachers (not including High School teachers) is \$7.85 $\frac{1}{4}$  per week. When we consider that the employment of teachers is for thirty-three weeks, we are forced to admit that teachers' salaries have not reached that point that would permit of an early retirement from the service.

#### PRIMARY DEPARTMENT.

No important changes have been made in the method of work in this department. We have, however, accomplished about twenty per cent. more work than during the previous year. The general opinion of the teachers of this department seems to be that if the children were not sent to school until six years of age they would be as far advanced at the age of seven, as they would be if they were sent at the age of five.

#### INTERMEDIATE DEPARTMENT.

The removal of one grade from the crowded rooms has given these grades increased opportunities, so that now the fourth grade receives as much time as the fifth grade. The amount of drill work in Arithmetic, Language and Geography has been increased. The general plan of review work as outlined in last year's report has been followed. The work in spelling shows a marked improvement over last year. I consider the subject of spelling as very important in these grades, and it should receive marked emphasis, because by using the Ward method of teaching reading we should emphasize the spelling as soon as possible.

#### GRAMMAR DEPARTMENT.

Some changes have been made in the organization and methods of instruction in this department.

At the opening of the fall term the work was so arranged that each teacher might have a less number of subjects to teach. We adopted a modified form of Departmental Teaching. The arguments for this system are, (1) better preparation for and greater intelligence in the work on the part of teachers; (2) increased interest on the part of pupils; (3) better adaptation to the abilities of teachers; (4) a lessening in the difference of methods employed in grammar grades from those used in higher grades. This method is being introduced into the best schools of our country.

For the first time in the history of this school, a male teacher has been employed as principal. I certainly think it is a man's work to manage this school.

By the arrangement adopted we have been enabled to give an increased amount of individual help.

#### HIGH SCHOOL.

It is pleasant to speak favorably of an institution concerning which the citizens take so much pride as is true in the case of the Yarmouth High School.

This school is loyally supported by the citizens. It has an honorable record, not only as a preparatory school but also as to its influence in the community.

When we realize that the present demands more of boys and girls than ever the past did, we can explain the existence of high schools throughout our country. That the individual abilities of a high school vary from year to year, is well known by educators. We must remember that we have not as yet attained perfection in any department.

The fact that our High School is on the approved list of Preparatory Schools seems to be in itself significant.

The following is a more detailed report by the Principal:

MR. CLARENCE W. PIERCE, *Supt. of Schools*—

The following report on the condition and progress of the work of the high school is respectfully submitted:

The attendance throughout the year has been large, and with the exception of the winter term, when it was somewhat interrupted by weather conditions, up to the usual standard of regularity.

Last June a class of fifteen were graduated, and a class of about the same size will be ready for graduation at the end of the present school year. The entering class numbered thirty.

The discipline and deportment of the school have not been lacking, and no cases of suspension, expulsion, or corporal punishment have occurred. Indeed, about the only place for criticism of the conduct or work of the pupils of the high school, is that spoken of in my report of last year, relating to the lack of application on the part of a portion of them, caused, in a measure, by too close attention to interests apart from the school.

This condition still exists and still tends to prevent the attainment of the best results in their school work. This fault, however, is not confined to this community, but is one quite generally complained of by educators of to-day, and suggests the following question: *Are our American youth growing to think that the public school will provide them with an education without effort or thought on their part, as it provides them with text books and other material for school work?* We hope this is not the case; but in order to prevent the possibility of such a condition arising, the co-operation of parents and teachers is necessary in order to fully impress all pupils, both of the high school and lower grades, with the fact, that satisfactory results in education can be attained only when the student brings to his school work that determination *to do his best*, which is a potent key to success in all departments of life.

The school has been and is, well supplied with working material, but many of the text books are getting into a condition which renders them unfit for further use, and a larger number will be needed during the coming year than were required for the one just ended.

The work of the school on the whole, has not been behind that of previous years, but that there is room, and, perhaps, need, of greater efficiency in all departments of school work in order to keep abreast of the times, is no less true of Yarmouth high school than it is of most other institutions of its kind.

H. M. MOORE, *Principal.*

#### REPAIRS.

Several important repairs have been made during the past year. The Ledge school building was shingled. The out houses of Grammar school building were removed, thus giving thoroughfares in both rear and front. That a building containing as many pupils (164) should have a rear entrance as well as front is well known.

Minor repairs have been made on all of the buildings.

The new boiler at the Grammar school building works to perfection. The piping of this building is not as it should be. I have had an expert examine the plant, and he tells me there is not enough pitch to the pipes to carry back the water after it is condensed from steam, hence in severe weather the water in the pipes freezes.

#### MUSIC.

Following the suggestions made in my last annual report, the results in this department have been very gratifying. The pupils seem to realize that music develops reasoning power, accuracy and alertness. Much individual work has been done in this department.

## TO THE CITIZENS.

The efficiency of our schools depends largely upon the harmonious relationship of the several factors included in their management, and upon the educational sentiment of a community. The introduction of a series of neighborhood meetings in all of our schools has done much to bring about that sympathetic interest of parents and citizens so necessary for the maintenance of a high standard of school work.

The pupils on Lane's and Mosher's Islands were given an opportunity to attend school for a period of five weeks during the summer. The location of these islands seems to render it almost impossible to convey pupils to the main land or neighboring islands, only in the best of weather and at favorable tides. The school on Cousin's island was closed for the winter term.

As you are well aware, the general cost of maintaining all branches of work has gradually increased, yet in not a single case has our appropriation been overdrawn.

That we take a just pride in our schools is a commendable fact. Our surroundings are favorable for progressive work. The magnificent gift of a Public Library by a former resident, exemplifies that appreciation of the needs of the present generation as well as the generosity of the giver.

I have felt strongly the existence of these favorable conditions, and I take this opportunity to thank the citizens for their kind words of encouragement and commendation. To the School Committee my thanks are especially due, for their personal assistance, counsel and advice.

Respectfully submitted,

CLARENCE W. PIERCE,

*Supt. of Schools.*

## Report of School Committee.

*To the Citizens of Yarmouth:*

In accordance with an established custom, the School Board herewith submit to you their annual report.

The Superintendent is the executive head of the school department, and his report will present in detail the general features of interest and importance in the work of the schools for the past year. Doubtless that report is sufficient to give all necessary information about our schools, but it may be desirable for the Committee to touch upon a few subjects.

Public school officers should take a large view of life, and should arrange their courses of study with the idea of securing the greatest good of the greatest number. It has been the aim of the School Board to make our school system sufficiently broad to meet the wants of all our citizens, and also recognize so far as possible, individual characteristics and tastes.

At the annual meeting of the Joint Committee, the Town of North Yarmouth was joined to our Union.

The general progress of the schools has been highly satisfactory. We have a band of very earnest and faithful teachers who, with quiet but effective methods, have been doing a work of vast importance for the present and future welfare of the town.

The members of the School Board have worked together for the general interests with the most pleasant relations. On account of existing conditions in our Grammar School, it seemed advisable to place a man at the head of that school and the present incumbent was chosen.

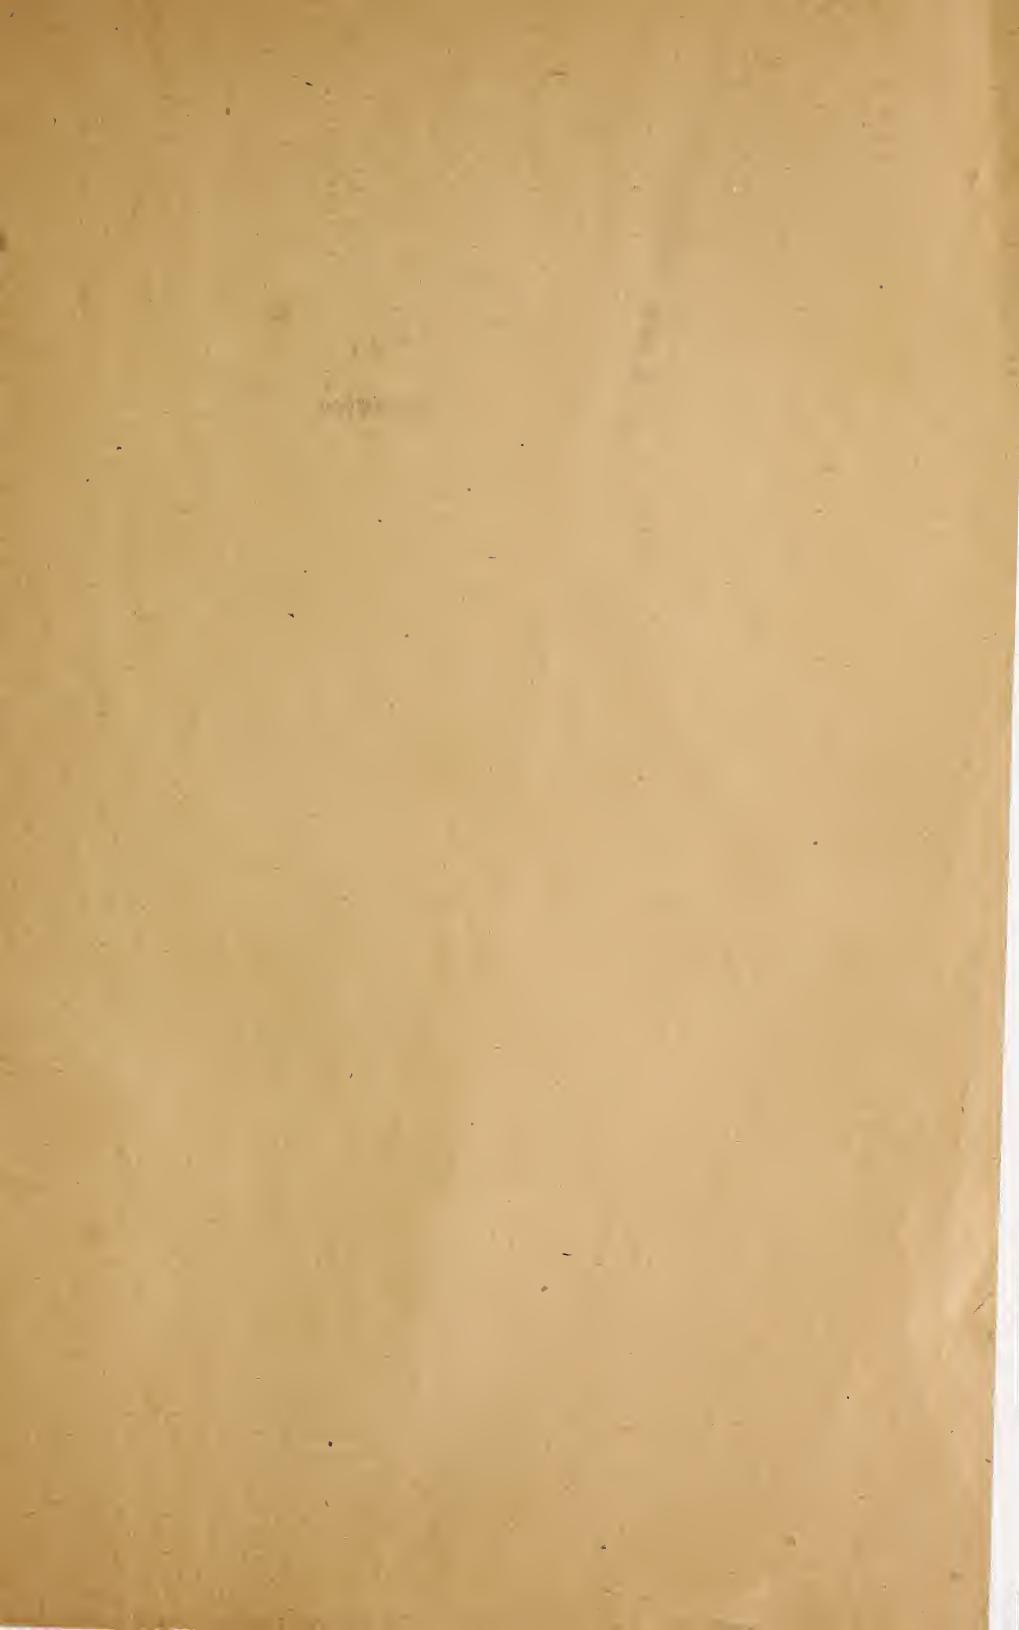

We are glad to commend the interest shown in the series of Neighborhood Meetings which our Superintendent instituted.

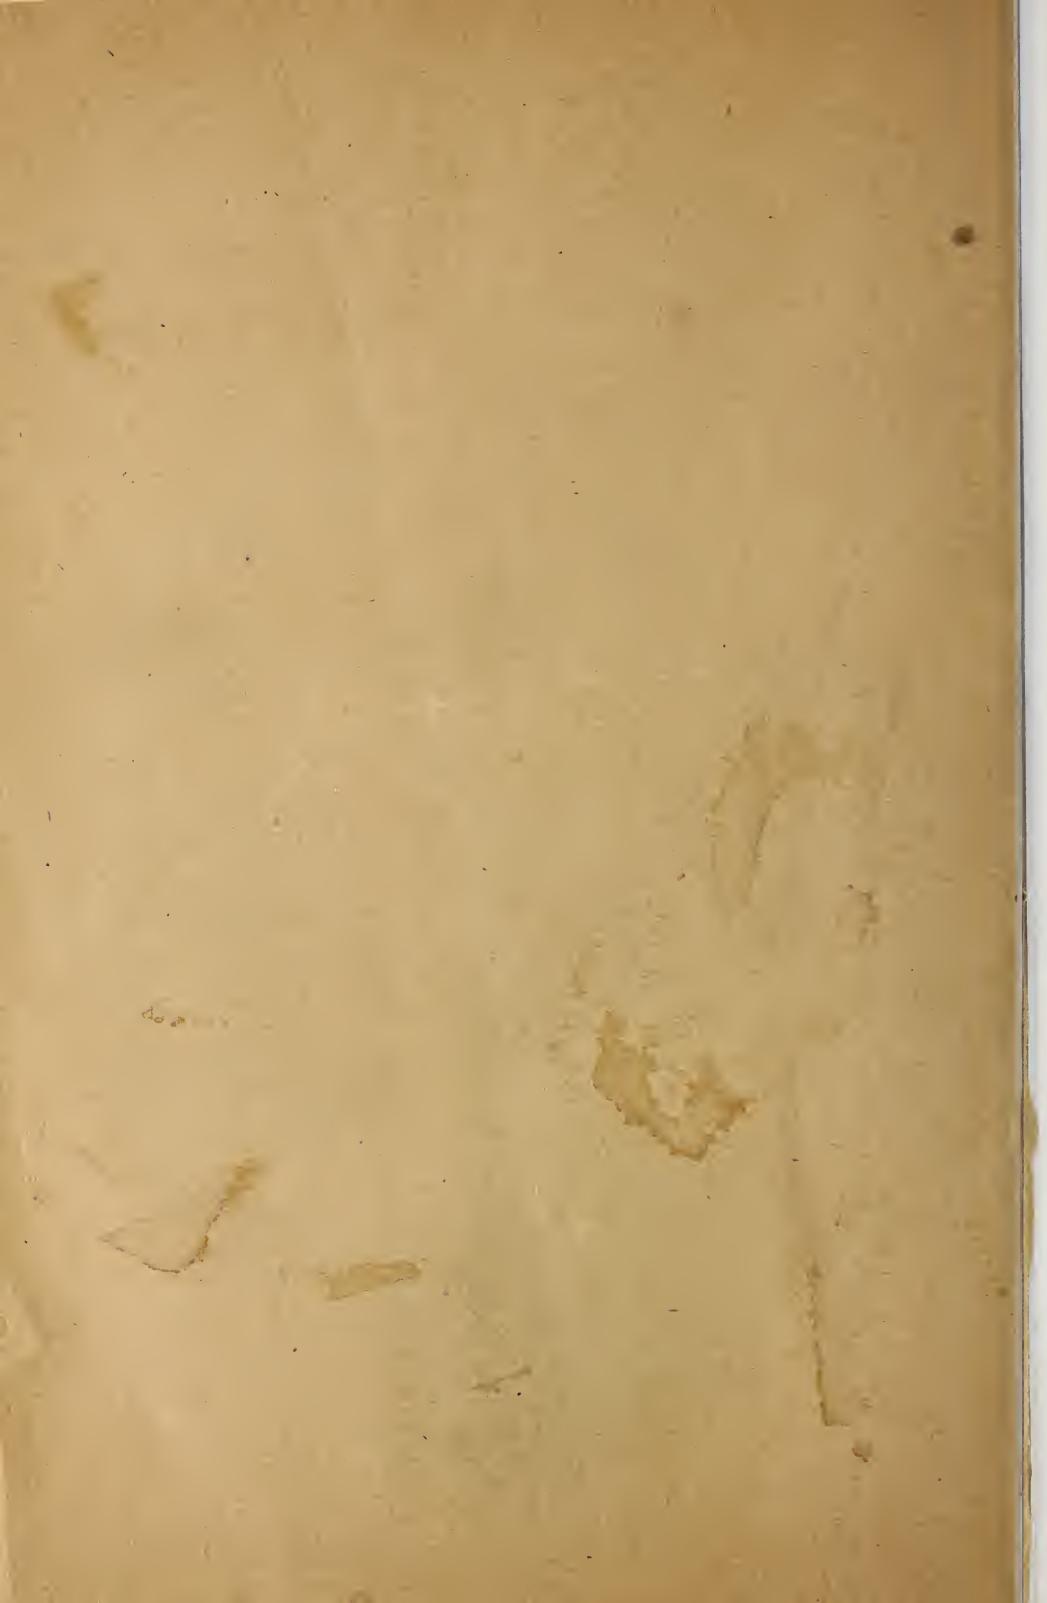

The subject of medical inspection in the public schools is constantly receiving more and more serious attention from the public. We would recommend that a physician or physicians be employed to systematically inspect the schools, that the Superintendent and the teachers, acting under his authority, be required to take such action as their opportunities make desirable. By taking such a step we can rid the schools of any infectious disease. Respectfully,

ELZADA L. GEROW, } *School Committee  
Wm. H. ROWE,      of  
JAMES R. PARSONS, }      Yarmouth.*

#### RECOMMENDATIONS.

Common schools,	\$2,700 00
High schools,	1,895 00
Supplies,	300 00
Text books,	300 00
Repairs,	300 00
